## POETRY: What Is End Rhyme?

### Directions:

Read the poem below and underline the end rhyme words in each stanza. Then, list the rhyming words for each stanza in the table provided.

### Mapping the Skies

*The night sky's a giant map,  
Stars are dots where secrets nap.  
Planets twirl in cosmic dance,  
Dreams can fly, given a chance.*

*The moon's a silver balloon so bright,  
Glowing softly through the night.  
Comets zoom with fiery tails,  
Leaving trails of twinkling light.*

*Galaxies are swirls of light,  
Spinning slowly out of sight.  
In this vast, mysterious place,  
Wonders shine in endless night.*
