Directions:

This whimsical poem uses subjects and pronouns. Find as many as you can and underline each pronoun.

The Silly Scarecrow

He stands alone in the cornfield row,
Waving his arms to and fro.
They think he's there to scare the crows,
But he just likes to strike a pose!

Sometimes they laugh and fly right by,
While he says, "Come, give it a try!"
You and he could dance all night,
Beneath the stars so warm and bright.
